

Notes to help with Thunkable

Adding Screenshots

For Mac

How to capture a portion of the screen

- 1. Press and hold these three keys together: Shift, Command, and 4.
- 2. Drag the crosshair  to select the area of the screen to capture. To move the selection, press and hold Space bar while dragging. To cancel taking the screenshot, press the Esc (Escape) key.

- 3. To take the screenshot, release your mouse or trackpad button.
- 4. If you see a thumbnail in the corner of your screen, click it to edit the screenshot. Or wait for the screenshot to save to your desktop.

For Windows

How do I take a screenshot of a specific area?

hold down  and  and press  = Use your mouse to draw a **rectangle** in order to specify what to capture. Windows then copies it to the **clipboard**. Since: Windows 10 Creators Update.

I guess it's in the [clipboard](#) now. How can I paste it into a document or something?

hold down  and press  = Windows pastes the screenshot (that is in the **clipboard**) into a document or image you are currently editing.
