

Year 7 Assessment Notification

Subject:	Digital Technologies
Task:	Computing Concepts Online Quiz
Due Date:	Term 1 Week 8
Weight:	40%

Content of the Task

During Term 1 Week 8, you will be required to complete an online quiz during class, to assess your knowledge and understanding of a range of computing concepts covered in class.

Requirements of the Task

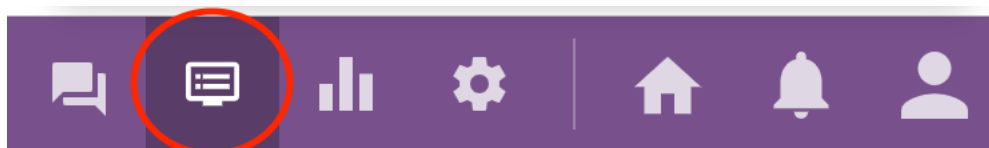

There will be 25 multiple choice style questions, covering the below topics:

- 1) Google Drive – 5 questions
- 2) Algorithms – 5 questions
- 3) Flowcharts – 5 questions
- 4) Binary Messages – 5 questions
- 5) Internet Addressing – 5 questions

The questions are based on the Computing Concepts booklet and associated class activities. You are encouraged to review any notes you have taken and revise each topic prior to taking the online quiz.

Submission instructions

To complete the online quiz, you will need to log into ED STEM, and click on the Sway icon, shown below.

This will take to a Lobby screen where you will be able to find a link to start the quiz, and complete it within **45 minutes**.

Student Outcomes

- ACTDIK023** Investigate how data is transmitted and secured in networks
- ACTDIK024** Investigate how digital systems represent data in binary

- ACTDIP025** Acquire data from a range of sources
- ACTDIP026** Analyse and visualise data to create information
- ACTDIP027** Evaluate how student solutions and existing information systems meet needs
